Sorry to bug you now...curious your thoughts...should we pass this along to another region who has a DUL given the certainty for audits and such? Though I do think Dave C or others in the Records Center could do it just fine, maybe it's better to have another region do it??

James Wright is presently acting as our document unit leader and is trained in that discipline. The individual who is backfilling James is not DUL trained. James has told me that it is not necessary to have a trained person in the position after he has put the process in motion. I know R7 has a DUL that has extensive experience during Katrina.

But no I don't believe it is necessary that they are trained as a DUL. I guess it depends how concerned EPA is in regards to an audit.

Hi Greg,

I'm very sorry to keep bugging you but, do you have any info to share regarding Doc Unit Leaders? Specifically, whether you're looking for particular skills or just someone who understands records? The Doc unit position is not one of the 11 KLPs required/supported by HQ so we don't have one...maybe other regions do and I should just pass along to them. However, we'd like to help and I'm curious how this is being staffed for future reference. Thanks so much,
Gina

I don't know what qualifications are required but we can ask Greg. Greg, can you give us your expectations? Thanks, lw

Haha I'm tempted Laura :) will put the word out on these. FYI-we don't have anyone officially trained as Documentation unit but I'll check in with the folks in our records center. Do you know who did this before and/or what qualifications they had beyond ICS (since doc unit isn't one of the HQ mandated IMT positions, am guessing few regions have them so curious). Cheers, G

Gina,

Ditto one more time: please check with our qualified individuals and see if they are willing to deploy for the requested dates. If it makes it more attractive to anyone, I'll be in Durango during these deployments and we're going to be having LOTS of fun! Thanks, lw
